Dolen said the man was something over six feet in height and weighed around 240 pounds. He did not display a gun but Dolen believed he had a knife.

"He told me to give him the money, when he came in," Dolen said. "I thought at first he was joking. But when I saw he was serious, I couldn't see any gun so I resisted. He was a powerful fellow and he certainly knew how to punch. He cut my eye open with one blow."

Report On Water Supply

There is to be a meeting at noon today in the ballroom at D'Amico's 214 at Joliet to hear the presentation of the water resources study of the Lower Des-Plaines Valley.

Mokena, Frankfort and New Lenox were among the municipalities that contributed to the fund to make the survey and report possible.

With the certain growth of the area the water resources are of major importance, it has been pointed out. The report is not available at the time of going to press but it is said to define the water problem of the region forecasts the effects of future developments, outlines available solutions, recommends a particular solution and discusses the means for organizing and implementing future action. The survey and report were made by the Stanley Engineering Co.

Take Course In Baby-sitting

Gene Morrall, principal of Carpenter Street school reports that nine girls from the seventh and eighth grades will be attending a three-day "Baby Sitting Workshop" during June at Silver Cross hospital. The program is sponsored by the Council of Social Agencies and the hospital.

The workshop is designed to educate baby-sitters in the Joliet area on how to become better qualified.

The Graphic Newspapers offices will be closed on Friday, May 29, because of Memorial Day.

Commander Jim Lillie will salute the war dead by firing three volleys. Taps will be sounded, and the roll of the dead will be called.

Since Memorial Day has been designated as a day to honor this country's war dead, Commander Burkhardt

urges all members of the Post to assist in this parade. He also invites any interested group or organization which was inadvertently overlooked in making the parade plans to contact him before the parade Saturday morning.

Husband Insists Wife's Death Was Accidental; Charged With Murder

Accidental or intentional is the question investigators are endeavoring to resolve in the fatal shooting of Mrs. Joyce Roe, 32, which took place early last Friday morning (May 22) in the kitchen adjoining the tavern known as Loyd's Tap, La-Porte and Wolf roads, Mokena.

Her husband, Loyd B. Roe, 34, is being held in the Will county jail. He has been charged with murder and bound over to the grand jury. The grand jury will not be convened until September.

The husband, who is represented by Attorney August Santoro, of Frankfort, has insisted from the beginning that the shooting was accidental.

He and his wife "were clowning in the kitchen" he told investigators and they got into a scuffle over the gun, a 38 caliber revolver, that he had brought to the kitchen from the cash register together with a cash drawer. The gun was discharged in some way, according to the husband, and the bullet struck his wife. The bullet passed thru her chin, from the upper to the underside, and then penetrated the upper left chest, angling down into the lung and severing major blood vessels on its course, according to Coroner Willard Blood who had an autopsy performed.

Roe telephoned Mokena police chief, Roy Newton, to report his wife had been shot. When Newton arrived at the tavern a short time after 2 o'clock he found Roe lying on his wife's body. Altho she was taken to Silver Cross hospital where she was pronounced dead on arrival it was believed Mrs. Roe was dead before she was taken out of the kitchen.

A couple of specks on her face caused authorities to have laboratory tests made to determine if there were powder burns. Results from these tests were expected back yesterday, after this paper had gone to press. Roe was permitted to go to

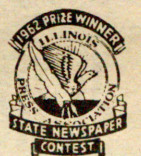

the First Lutheran church in Joliet, Monday afternoon before time for the funeral services, to see his wife's body. He was taken there by Chief Deputy Frank Skul and Gilbert Knater, chief investigator for the state's attorney's office. The officers said Roe was visibly affected and for a few moments they thought he was going to black out.

According to State's Attorney Frank H. Masters a woman was in the tavern last Thursday night and Mrs. Roe ordered her out. The husband, she said, advised her to leave to avoid trouble. The woman went outside the tavern and sat in her car. A little later, Masters quoted her as saying, Mrs. Roe came out and slapped her face. Mrs. Roe had slapped her about two months previously when she was in the tavern, the woman said, but added she was at a loss to explain the action, contending that she barely knew Roe.

The Roes have three children ranging from eight to three years of age.

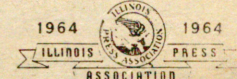

Authorities were awaiting results from the laboratory tests before resuming the questioning of Roe.

Let Us Preserve Our Heritage

Saturday, May 30, is Memorial Day.

Like the Fourth of July it is of American origin. The Declaration of Independence adopted July 4, 1776 was a challenge to the world as well as our birth certificate as a nation. Memorial Day marked the close of a conflict between the North and South that threatened to shatter that nation, and was designated as an occasion to express tribute and thanks to those who died to preserve the Union.

The date, May 30, was originally set aside as a memorial to the dead of the Northern forces.

In time, however, the day was set aside to honor the dead of all wars in which Americans have participated.

The War Between the States was fought a century ago and all of the veterans of that conflict have answered the final muster. The ranks of those who fought in the Spanish American War are almost depleted and time is taking its toll of veterans who served in the First World War.

There are some elements, including left wingers, so-called liberals, starry-eyed one-worlders, and other gushheads who scoff at patriotism and love of country, dismissing such qualities as mere old-fashioned sentiment and advocating they be tossed into the discard, along with morals and religion.

We should indeed be thankful that we have patriotic organizations, made up of former service men and their families, who would preserve the ideals of our nation's founders and protect and defend the constitution.

The Communists have never kept it a secret that they intend to take over the world, if they can, and are making a determined effort to undermine our form of government. That these creatures are busy in the United States has been told repeatedly by no

less than J. Edgar Hoover, director of the Federal Bureau of Investigation.

In some circles it is the fashion to belittle and ignore the warnings of the FBI director and to claim that the Reds would be our buddies if we would just let them.

With Memorial Day close at hand we should each make a resolve to be good citizens and be ready to fight, if necessary, to preserve our constitution and liberties.

For us the United States must come first. If we can afford to help some other nation that is fine but let us help ourselves first. How to best serve our own interests should be paramount in all our undertakings.

We believe that more emphasis should be placed on our own history in the schools and colleges and history written by believers in American principles and liberty. We don't need left wingers to write our history courses.

We have been repeatedly warned that the commies are working hard on college campuses to brainwash students. Someone is certainly at work because recent surveys in some colleges reveal an alarming tendency toward totalitarian government.

This was shown by the answers to questions concerning rights and privileges of governmental bureaus and agencies. Most of the students believed such bodies should not be subjected to public scrutiny and it would be perfectly all right for them to censor all publications and withhold any information they saw fit.

God forbid that such conditions should ever come to pass because that would be the end of the republic.

Men have died to preserve our heritage -- let us live to perpetuate it.

Who are they?

One of the great mysteries of the ages as well as the world's greatest authority on all subjects is They.

Even as a word They is different. One could say it is an ambidextrous word or describe it as a switch hitter because it takes either a singular or plural verb form and is perfectly at home in any group of people whether pundits or palookas.

Just who They are is a riddle that compares favorably with the one involving the Sphinx. No one seems to know who They are. Perhaps this very anonymity gives They the weight it carries.

THEY SAY is the ultimate.

Let some individual voice an opinion or make a pronouncement, whether he be President or peasant, and you get an argument. They are many who may be willing to accept the source as authoritative but there are also many who tend to discount it. Perhaps they are of different politics than the speaker, perhaps they are

experts in the same line but have reached different conclusions.

But when They comes in to the picture doubters are hard to find.

"They say..." may be the beginning of a whispered innuendo that in a short space of time comes to be accepted as fact and has wrecked a reputation.

There doesn't seem to be anything that They doesn't know.

"THEY SAY this is going to be a very hot summer," one may hear and by golly, it is, even tho most of the days may be comfortable if not cool.

"We had better enjoy this cool spell while we can," one will hear, "because They say this is going to be a scorcher." All it takes is a few consecutive days of temperature up in the 90's and They is completely vindicated.

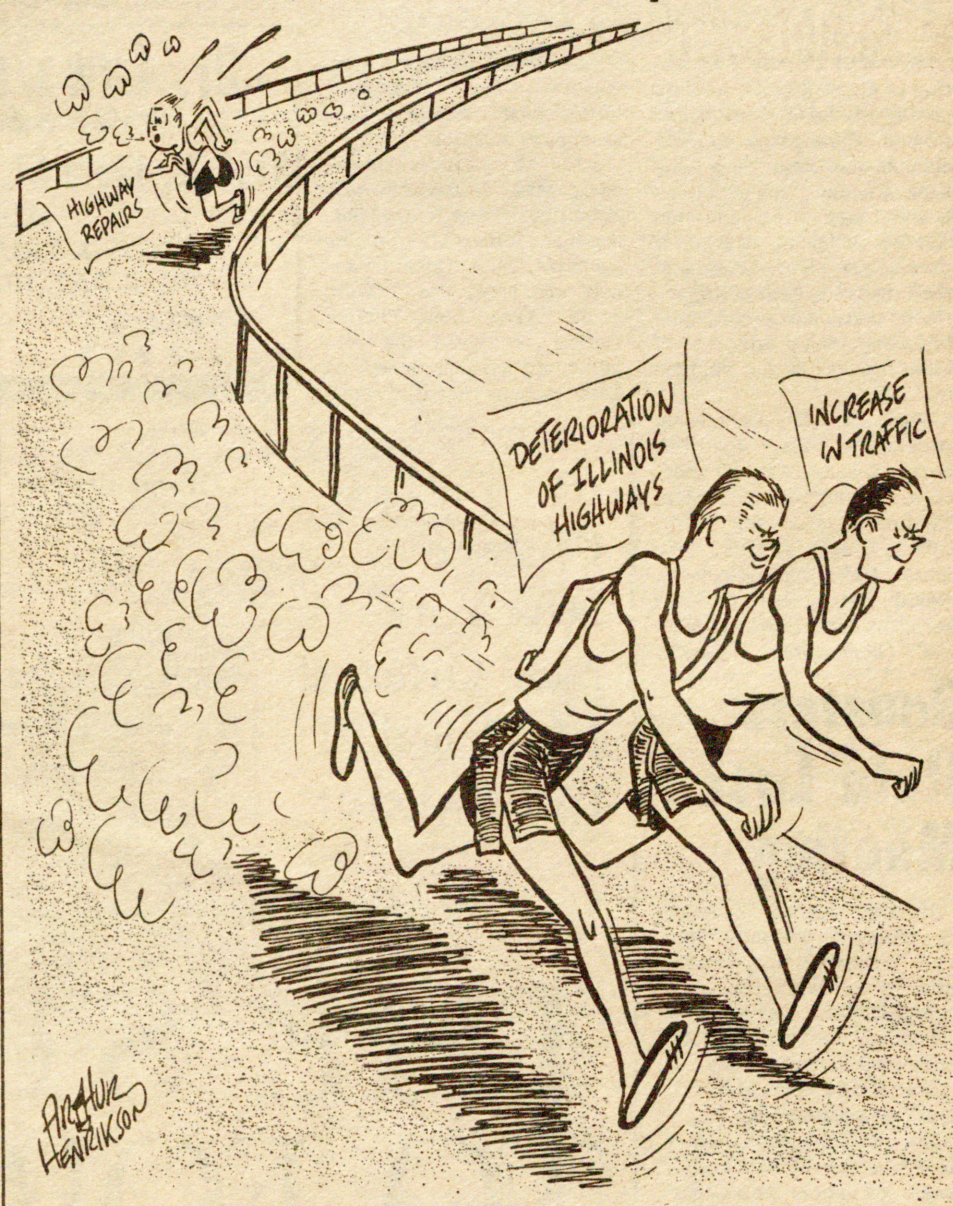

They say is pretty sharp on the weather, whether it is winter, summer, spring or fall.

They say is pretty good with politics too. Pretty good? What am I saying! They say is about the best source one can find on politics and you can get as many views as you want. Politics thrive on talk and what They say about what effect this is going to have and They say what such and such action is going to do... and when They say it will really split the party in two and They say that so-and-so is a mortal cinch, what more can one ask.

If anything ever happened to They say the political writers and the gossip columnists would go out of business. It would be pretty hard on business too for that matter and would bankrupt the authors who write daily of happening in the sports world. And what would happen to the build up of science, space exploration and education if what They say was to be excluded from conversation and writings.

THE HISTORIANS would be up against it too if de-

Can't Catch Up

Business & Finance

BY MAURICE P. ANGLAND

Ford Motor Company announced a \$1.61 billion program of plant expansion and improvement, for the next three years. General Motors had previously announced it will spend about \$2 billion in the next two years on plant improvement and expansion. Chrysler has a program of spending about one billion on its expansion plans for next four years.

The big steel companies have scheduled large plant expansions in the Calumet region. Bethlehem Steel plant at Burn's Ditch is reported to be aiming at target of pouring steel before the close of 1964. The large U. S. Steel rolling mill recently announced, is reported

prived of the far reaching They say. Many of the top figures of history only made the grade, they say, thru They say. Only last week a former aide of the late General MacArthur was taking some high army and high political and diplomatic brass to task for statements They say were made by or about the General.

If what They say is repeated often enough and long enough it is quite apt to become listed as a fact. A fact founded on proof can sometimes be successfully controverted but they say that a fact established thru They say is difficult to knock down.

That figures. They say the solution for most problems is to study the angles. Trying to study the angles on They, however, is too much of a problem because, they say, there are too many angles.

If someone could just get They identified perhaps one could win a debate now and then, but as it is, or so They say, it is pretty hopeless.

ed as likely to be in operation by the close of 1965.

This speed of erection of such steel facilities is surprising as steel mills are custom built, for specific uses and production. Facilities such as that of the large steel makers, will include the latest in proven equipment and methods. Heavy and specialized equipment of this type, has had to be designed especially for this installation. The speed with which these mills are to be built, is quite unusual.

We who live in the southwest area of the Chicago Metropolitan district, can expect rapid change for the next few years at least.

The news is reflecting annual meetings and reports of current business and predictions of things to come. The president of the Standard Oil of New Jersey predicted consumption of gas and oil in 20 years to be two and a half times the present consumption of the free world.

The increase in western Europe's consumption of oil is much greater than that of this country. Industrialization of Europe is moving ahead at a rapid rate.

The creation of the European Common Market and a mass market not badly hindered by numerous political barriers to commerce, has created mass production similar to our own, in some industries. This widening of markets has also brought about labor shortage and raiding of various industries and areas, to secure needed workers, has become fairly common.

At the time of the tax cut, there were many predictions of how these savings would be expended by consumers and industry. Arthur Rosenbaum economist of Sears, Roebuck & Co., does not expect inflation ahead. His prediction is that prices will rise only about one per cent in 1964.

It would seem that business predictions show no sign of a slowing down of

industrial activity.

The expectation is that the steel - automobile business pattern will continue to hold for until at least early fall. Some analysts note that the production of cars may be increased by rushing model changes, in order to have an inventory in event of strike in the industry. If the auto labor contract is effected without stoppages, it may mean heavier inventory than usual.

Investment advisors are suggesting continuation of an attitude of reasonable caution, but with likelihood of good business.

Dear Editor:

I would like to take this opportunity to thank the New Lenox Press for the interest it has shown in the Grade School Band and the excellent coverage the Band and Band-boosters have received during this past year. On behalf of the Band members, Boosters and Director, we say thanks again.

Honor 3 Blind Students For Scholastic Records

Three blind college students were honored by President Johnson at a White House ceremony last Thursday when he presented them with awards of \$500 each for "outstanding scholastic achievement," it was announced by Mrs. Franklin W. Klein, chairman of the Palos-Orland unit of Recording for the Blind, Inc.

The Palos-Orland unit at LaGrange Road at 143rd Street, Orland Park is one of 16 such volunteer groups of Recording for the Blind, the national, non-profit organization which sponsors the annual awards to gifted blind collegians. The unit has 50 of the 2400 volunteers throughout the country who record both textbooks and other printed material for blind students.

The three blind students, all graduating this June, conquered their handicap to attain highest honor grades in difficult curriculums. One plans to work towards a PH.D. in mathematics, another plans to become a teacher in college, and the third will enter the Peace Corps before starting graduate work.

One of the students, Robert Bruce Feinberg, 20, is graduating from Northwestern university, Chicago, with a B.A. degree, in the top ten percent of his class, a major in mathematics, with a straight A average. He has been elected to Phi Beta Kappa. He plans to enter graduate school and work towards an M.A. and PH.D. in mathematics.

Craig R. Anderson, 21, another of the award winning trio, a major in physics,

is graduating B.A. from Carleton college of Northfield, Minn. where he ranks in the top 20% of his class. He plans to be a college teacher.

The third winner, a girl, is Anna L. Kauffman, an English major at the University of Illinois college of arts and sciences, where she has maintained a straight A average and is graduating with a BA in the top 10 percent of her class. She has also been elected to Phi Beta Kappa and plans to enter the Peace Corps before resuming her studies toward an M.A. in English. President Johnson continued the tradition started by President Eisenhower and followed by the late President Kennedy.

The Lantern Craft Shop Busy Place

The Lantern studio is in the home of Mrs. Paul Schreiber, where several local women meet twice a week. They are already very busy preparing for Christmas with emphasis on "Christmas is for Children" but there are new and lovely decorations being designed for the home.

The Lantern party service rents special tablecloths and centerpieces, ranging from the formal bride's parties to patio parties.

The Palos-Orland unit of Recording for the Blind was founded about six years ago by Mrs. Schreiber and Mrs. Franklin Klein. Until this past year their recordings were put onto tape in the basement of the Palos Park library but the unit had outgrown these quarters and now has a scientifically equipped studio in Orland Plaza Shopping Center. All this progress has been possible thru contributions of local people and various organizations other than The Lantern which contributes a substantial amount each year.

The unit receives no financial aid from national headquarters in New York and is entirely self sufficient.

"I am very proud to have had an active part in the formation of this unit," said Mrs. Schreiber. "Palos-Orland should be proud that our community is making a substantial contribution to nationwide organization - helping the blind to become self-supporting instead of dependents."

Mrs. Linda Pierce from Joliet entertained with vocal selections. Firemen Make Runs

The Mokena fire department answered 15 calls last month, it was reported by Chief Robert Rust.

Three of the alarms were turned in because of overheated furnaces. There was one house fire; two car fires; four grass fires and a rubbish fire. The department had three inhalator runs and were called out once when a washing machine motor became too hot.

Arrangements are being made to equip truck radios with speakers that can be heard at the scene of a fire.

William Haas, Charles Manhart, Ted Buschell and Charles Craigmile comprise the committee that will have charge of the department's activities at the Chamber of Commerce - Lions club Fourth of July parade and picnic.

A proposal made by the fire department thru its president, Stanley Williams, that the Mokena park district join with the fire district in building an engine house in Mokena community park so that a pumper could be kept south of the railroad tracks to insure fire protection there in the event of trains blocking crossings. Because of the use of the park by children it was believed an engine house there would be a safety hazard.

New gas supply makes possible major Texas Eastern expansion

What man can dream, man can do. Now natural gas flows to shore installations from wells located fifty miles offshore and more than three hundred feet deep on the floor of the Gulf of Mexico. Underwater equipment, in some areas, is remotely operated and is serviced by mechanical robots. ■ New supplies of natural gas along Louisiana's coast have increased

Texas Eastern's gas reserves to over 17 trillion cubic feet, and the future reserve potential in the area is even greater. In the next four years, Texas Eastern, pipeliners of energy, will invest over \$200 million to handle this gas and expand service to the Midwest, New England and Eastern Seaboard. Wrath To Make Study Of Gifted Child Program

Northwestern university has informed H. James Wrath, Superintendent of the Arbury Hills school, that he has been accepted as a participant in a workshop in child development of gifted pupils to be held on their campus this summer.

The workshop is to be held from June 22 to Aug. 1, and is under the sponsorship of the department of program development for gifted children, Office of Public Instruction, Springfield.

The appointment carries with it a state grant to cover tuition, and a stipend for room, board and travel expenses.

The six-week study will concentrate on the gifted child between the ages of 5-12. Such topics as identification of and realistic expectations of gifted children will be studied as well as examination of new curricula and changes in teaching techniques. Direct observation will be a part of the program as the participants gather at the Miller Elementary School in Evanston, where classes for the gifted child are held during the summer.

Mr. Wrath has served as coordinator for the Lincoln-Way Principals' Association this past year. This group, representing all elementary schools in the high school district along with Lincoln-Way administrators, has developed several cooperative programs of learning for children of this area. The program for educating the mentally retarded child has been most successful in meeting the needs of this group of handicapped children.

Mr. Wrath feels the need of a program to take care of the superior or gifted youngster. He hopes that his work this summer may lead him to develop a cooperative program for the gifted child of the Lincoln-Way area.

He Had Head — And Heart

The recent death of Vice Admiral John M. Hoskins recalls the famous remark made by the hard-fighting rugged individual when it was suggested that he seek disability retirement after he lost a leg in a World War II naval engagement. He said: "The Navy doesn't want me to think with my feet; it's not like they shot my head off."

MRS. EDWARD HOVI Telephone: 479-5740
The Arbury Hills Kindergarten Organization held their monthly meeting at the school Tuesday evening, May 19. Both James Wrath, superintendent of the school, and Mrs. Richert, the kindergarten teacher for the past year, were present to discuss the program for the kindergarten class for the up-coming year at the school.
Mrs. Joseph Farnham acted as hostess for the meeting, and the next meeting of the group will be held at the school Tuesday, June 15 at 8:30 p.m.

- o -
The First Nighters will hold their monthly meeting at the home of Mrs. Will Way, 9522 W. Hickory st., Thursday, June 4 at 8 p.m.

- o -
The Arbury Hills Baby Sitters Cooperative will have their secretary's book change hands from Mrs. Leonard Gunty to Mrs. Richard Heim. After that date any member who needs a baby sitter should contact Mrs. Heim at 479-5755 at

least twenty-four hours in advance of the time needed.
Any mother in Arbury Hills interested in further information about the group, or who wishes to join the group, contact Mrs. Heim at the above number.

- o -

The Arbury Hills Boys Baseball League will hold a meeting at the school tonight, Thursday, May 28, at 8 p.m. This meeting will be open to all, both the men's group and the ladies of the auxiliary, and any other interested persons in the area.

- o -

The second committee meeting of the women's auxiliary of the Arbury Hills Boys Baseball League was held in the home of Mrs. William Roach Monday evening, May 18.

The refreshment committee, headed by Mrs. Roach, reported on progress being made with the refreshments which will be sold at the games this summer. Refreshments consist of hot dogs, potato chips, candy and pop. The hot dog machine and bun warmer is ready for use at our first game which will be held Memorial Day, May 30, at the baseball field right in back of the Texaco gas station.

A parade thru Arbury Hills at noon will precede the double header games. Mrs. Al Behnke, head of the parade committee, has tried to contact all civic and social organizations in the area asking them to join in the parade.

We hope that any person or persons we may have inadvertently missed contacting will call Mrs. Behnke at 479-5412 to let her know that you will join in the parade, and end up watching the game.

Mrs. DeVries, the decorating chairman, has been working hard gathering materials to decorate some of the floats planned for the parade.

- o -

The Arbury Hills Civic Association held its special meeting at the school on Tuesday evening, May 19. There was to have been a business meeting beginning at 7:30 p.m., but, due to the late arrival of the necessary quorum, George Tate, the county supervisor, who was the guest speaker for the evening, was asked to hold his informal question-answer session prior to the business meeting.
Tate freely answered

questions by the group on a variety of subjects. When asked about the advisability of incorporation for Arbury Hills, he stated that it was ordinarily inadvisable for a small, totally residential area, to incorporate, if the matter of a relatively large increase in taxes would be a factor. Business, with its large tax bills and rebate on sales tax to the community is almost essential to a successful community.

He also answered questions about the local dog nuisance in the area. There is a statute on the books of the township which is quoted as follows: Ordinance Number 1, adopted on April 5, 1960 requires all dog owners to: 1. Keep their dogs confined or tied at all times. 2. Have their dogs vaccinated against rabies each year. 3. Have a license.

All stray dogs will be picked up and impounded for two days only. If not claimed by the owner and all charges paid by this date, they will be destroyed.

Owners failing to comply with this ordinance are subject to a fine of not less than \$10 or more than \$100.

In answer to an inquiry pertaining to Willow Lane, Tate stated that it would be paved this summer. Mr. Feeley has until Aug. 1 to advertise for bids and let the contract, or the bonding company would take over and have it paved.

He answered the subject of forming a water district to purchase the local water works and maintaining it for local use, by stating that it

could become exorbitantly expensive if there were a fluctuating population in the area.

There was a short business meeting following the discussion period. There being a quorum present, the proposed amendments to the by-laws were voted upon. As a result of the vote there are several changes. The meetings will be held during September, November, January, March, and May each year, with elections to be held at the January meeting instead of the February meeting as in the past. The date of the meeting has also been changed from the first Tuesday of the month to the fourth Tuesday of the month. The time will remain the same, 8 p.m.

There was also a committee report on the progress of the plans for the fourth annual civic association family picnic. It was decided to give out tickets to the children at the park to use in obtaining their soda pop and ice cream, so that the distribution would be equalized.

The board of directors will be given the tickets to sell for the picnic in their area. They will be responsible for total coverage in Arbury Hills.

The picnic will be held at the Mokena Community Park Sunday, June 21. To avoid possible accidents as happened last year, the committee has obtained the entire park for the picnic, and a ball game is to be scheduled through the Boys Baseball League.

Turns Down Zoning To Permit Training Stable

(CNS) - Opposition by area residents was a factor in the county board's decision Monday to turn down a zoning change for 5 1/4 acres on the north side of 135th St., 350 ft. west of 80th Ave. in Palos township, which was to be used to train horses.

Over 80 residents appeared at the Palos Park village hall March 9 to oppose the application filed by Vincent Buckley, of 810 W. 135th St., Orland Park.

Buckley, who operates an auto agency in the village of Worth, was requesting a change from the R-3 single family residence zoning to

B-5 general commercial district. According to testimony recorded by the zoning board of appeals at the meeting, Buckley intended to start with 15 horses, with no new construction of barns planned.

Among objectors was a physician who claimed that the use might lead to contamination of area wells. A protest petition signed by 83 residents was also put into the record.

Monday, the county board followed the recommendation of the zoning board to deny the change as "spot zoning of the worst type."

Reporter Dies May 20; Homer Reports On Cancer Drive

Elizabeth B. Anderson, nee Burch, 76, Rt. 1, Homer Township, died May 20 at Silver Cross Hospital. Her husband, Ira, and a brother, H. Reed Burch, preceded her in death. Born April 11, 1888, in Homer Township, she had been a lifelong resident.

A Sunday school teacher of seventh grade pupils and a deaconess of Homer Congregational Church, she was still actively writing both Homer and Fairmont news columns for the Lockport Herald. Homer news also appeared in several other Graphic publications.

She had been president and charter member of the Wayside Workers of the King's Daughters. She was a member of the Maple Street Arbor Gleaners and Homer Missionary Society of the Church.

Survivors are two daughters, Mrs. Raymond (Emily) Carlson of Homer Township and Mrs. Joseph (Isabel) Vancil of Downers Grove; two sons, Eugene and Bruce, both of Homer Township; 13

ELIZABETH ANDERSON

grandchildren, two great grandchildren; two sisters, Mrs. Frank (Irene) Milne of Lockport and Mrs. Willard A. (Margaret) Rowley of Homer Township; two brothers, Robert of Homer Township and Ralph of Sheldon, Wis.

Funeral services were held at the Goodale Funeral Home Saturday with the body taken at noon to Homer Congregational Church for services at 2 p.m. Rev. Stanley Cox officiated. Interment was in Lockport City Cemetery.

Auxiliary Meets

Homer Volunteer Fire Department Auxiliary will meet Monday, June 1, at 8 p.m. at the fire station. A demonstration will be given by 4-H girls.

Hostesses are Mary Todd, Catherine Scheller, and Beverly Rauman.

Homer Township residents gave \$452.84 to the American Cancer Society in the 1964 crusade announced Mrs. Roy Parker, crusade chairman. Mrs. Parker expressed her appreciation to the workers who covered the area in a door-to-door visitation, distributing educational material and taking donations for the support of the program of research, service and education conducted by the American Cancer society.

Anyone who was inadvertently missed in the campaign may contribute to the American Cancer Society through the office of the Will County unit, 260 Western Ave., Joliet, and the

gift will be credited to the Homer Township drive.

Mrs. David Beavon, Will County co-chairman, has commended Homer workers for their creditable coverage of the Township. "While returns in the county have generally not come up to the total of last year's giving, the Homer Township total came within a few dollars of the 1963 gift of \$458.50. Homer served as a model for solicitation in other townships in the county with scattered population. Many attempted a door-to-door coverage of the rural areas for the first time this year in a stepped-up campaign to reach each home with the life-saving pamphlet of facts on early detection

of cancer," she said.

"The well-maintained support by rural residents and the increase in township

coverage have been decisive factors in the achieving of the goal in Will County this year and it was the example of Homer that served as the inspiration to extend the drive into the rural areas on a door-to-door basis."

BY ANN MC DIVOT

We should all be about ready to have our handicaps figured, being that most of us will have five games played. This will make playing more interesting for we will then be able to establish our winners each week. Look for scores in the future issues of the paper.

One of our ardent members, who just recently became the proud owner of a set of new clubs, became so engrossed in her game that she left her nine iron at the 4th hole and didn't even miss it. (Wonder what she used for the remaining five holes?) The funny part about this whole affair was that when it was turned in at the club house, it was apparent that it hadn't even been used yet.

came from the fourth place finish of the 880-yard relay team of Jim McGhee, Danny Martin, Gordon Bell and George Korhorn. Fifth places were won by Chuck Meulder in the low hurdles and Tom Johnson in the pole vault.

In all, five new records were set on the varsity level. In the high jump Jim Frye of H-F jumped 6 feet 4 3/4 inches to beat the old record by 4 1/4 inches. In the discus Dave Carty of Rich East set a new record with a throw of 150 feet 4 inches to better the old record of 149 feet 11 3/4 inches. Rich East's Jim Perretz set the record in the shot put by 1 foot 5 1/2 inches with a throw of 52 feet 11 1/2 inches.

4-Man Softball Team King And His Court Will Play Manahattan

Eddie Feigner and the king and his court, famous four man softball team, will appear at the Joliet Memorial stadium, Monday, June 8, to play a regulation nine man team, the Manhattan Shadow's.

Feigner, who is referred to as the king, does the pitching and has 19 windups, 14 hand deliveries, and three speeds. He has to his credit 858 shutouts, 461 no hit games, and has struckout while pitching blindfolded

In the running events Steve Bittner of H-F bettered the old quarter mile record of 51.2 by .6 seconds. In the mile Fred Pieterczak of Bremen ran a 4:36, bettering the old mark by 4.2 seconds.

The conference meet was the last of track events for the Sandburg cindermen. Thru this season two varsity records were set and one was tied. Early in the year Rich Benson set the discus record with a throw of 133 feet 5 inches.

In the district meet Jim Reeves broke his own record in the mile set earlier this year, pulling the school record for the mile down to 4:35.7. In the half mile Doran Harding tied the existing school record of 2:04.

The frosh-sophs set a total of three new school records. Max Hodges broke the school record in the shot put, and Bob Fountaine set the school record in the discus. The other record was the sops mile relay team which set the school record at the conference meet.

close to 5,000 batters.

Jerry Jones, who is the team's power hitter and also speedster on the bases plays shortstop, while two new comers to the team, Al Jackson, and Bill Kehrer handle the first base and catchers positions respectively.

The team has also been featured in such magazines as Life, American, and Time. There is also a chapter concerning the team in the book, "The Softball Story". Eddie Feigner himself has appeared at the Chicago Outdoors Show.

Preceding the game, the Harwood post national champion American Legion band will play a concert starting at 8:00 p.m.

NEW LENOX grade school track team has been doing well this spring. In the district meet New Lenox scored 32 points to tie with Frankfort and Manhattan for first place and in the DesPlaines Valley conference meet the New Lenox heavyweight team tied with Laraway for first place with 31 points each, nosing out Manhattan by half a point. The lightweights finished in six place with 5 1/2 points.

Father Of The Year My Dad, Says Mark

The Chicago Area Father's Day Council conducted a Father of the Year contest recently. Each school was allowed to send in one letter per grade division. Orland Center school was allowed one letter. Mark Corley's essay on "Why I Think My Dad Should Be Father of the Year" represented the entries from Orland Center. Mark is a fourth grader in Mrs. Leedy's class.

His essay:

"My father should be Father of the Year because my dad works hard to feed me and keep me looking nice

and neatly dressed. When he has time, he takes me fishing or maybe to a golf driving range. Sometimes he plays with me. He teaches me many things. If I ask him something he will stop what he is doing and answer my questions. He gives me money when I go to special places.

"He takes my family and me on vacations to have fun. He loves my whole family. That's why I want my dad to be Father of the Year. If he won't be chosen Father of the Year, he will be father of the year to me."
